Chapter 43.31 RCW.*

RCW 43.330.005 Findings. The legislature finds that the long-term economic health of the state and its citizens depends upon the strength and vitality of its communities and businesses. It is the intent of this chapter to create a department of commerce that fosters new partnerships for strong and sustainable communities. The mission of the department is to grow and improve jobs in Washington and facilitate innovation. To carry out its mission, the department will bring together focused efforts to: Streamline access to business assistance and economic development services by providing them through sector-based, cluster-based, and regional partners; provide focused and flexible responses to changing economic conditions; generate greater local capacity to respond to both economic growth and environmental challenges; increase accountability to the public, the executive branch, and the legislature; manage growth and achieve sustainable development; diversify the state's economy and export goods and services; provide greater access to economic opportunity; stimulate private sector investment and entrepreneurship; provide stable family-wage jobs and meet the diverse needs of families; provide affordable housing and housing services; and construct public infrastructure.

The legislature further finds that as a result of the rapid pace of global social and economic change, the state and local communities will require coordinated and creative responses by every segment of the community. The state can play a role in assisting such local efforts by reorganizing state assistance efforts to promote such partnerships. The department has a primary responsibility to provide financial and technical assistance to the communities of the state, to assist in improving the delivery of federal, state, and local programs, and to provide communities with opportunities for productive and coordinated development beneficial to the well-being of communities and their residents. It is the intent of the legislature in creating the department to maximize the use of local expertise and resources in the delivery of community and economic development services. [2010 c 271 s 2; 1993 c 280 s 1.]

Purpose—2010 c 271: "In 2009, the legislature changed the name of the department of community, trade, and economic development to the department of commerce and directed the agency to, among other things, develop a report with recommendations on statutory changes to ensure that the department's efforts: Are organized around a concise core mission and aligned with the state's comprehensive plan for economic development; generate greater local capacity; maximize results through partnerships and the use of intermediaries; and provide transparency and increased accountability. Recommendations for creating or consolidating programs deemed important to meeting the department's core mission and recommendations for terminating or transferring specific programs if they are not consistent with the department's core mission were to be included in the report.

In accordance with that legislation, chapter 565, Laws of 2009, in November 2009 the department of commerce submitted a plan that establishes a mission of growing and improving jobs in the state and recognizes the need for an innovation-driven economy. The plan also outlines agency priorities, efficiencies, and program transfers that will help to advance the new mission.

The primary purpose of this act is to implement portions of the department of commerce plan by transferring certain programs from the

department of commerce to other state agencies whose missions are more closely aligned with the core functions of those programs. This act also directs additional efficiencies in state government and directs development of a statewide clean energy strategy, which will better enable the department of commerce to focus on its new mission." [2010 c 271 s 1.]

Effective date—2010 c 271: "This act takes effect July 1, 2010." [2010 c 271 s 803.]

RCW 43.330.007 Management responsibility. (1) The purpose of this chapter is to establish the broad outline of the structure of the department of commerce, leaving specific details of its internal organization and management to those charged with its administration. This chapter identifies the broad functions and responsibilities of the department and is intended to provide flexibility to the director to reorganize these functions to more closely reflect its customers, its mission, and its priorities, and to make recommendations for changes.

(2) In order to generate greater local capacity, maximize results through partnerships and the use of intermediaries, and leverage the use of state resources, the department shall, in carrying out its business assistance and economic development functions, provide business and economic development services primarily through sector-based, cluster-based, and regionally based organizations rather than providing assistance directly to individual firms. [2010 c 271 s 3; 2009 c 565 s 1; 1993 c 280 s 2.]

Purpose—Effective date—2010 c 271: See notes following RCW 43.330.005.

Implementation plan—1994 c 5; 1993 c 280: "(1) The director of the department of trade and economic development and the director of the department of community development shall, by November 15, 1993, jointly submit a plan to the governor for the consolidation and smooth transition of the department of trade and economic development and the department of community development into the *department of community, trade, and economic development so that the department will operate as a single entity on March 1, 1994.

(2) The plan shall include, but is not limited to, the following elements:

(a) Strategies for combining the existing functions and responsibilities of both agencies into a coordinated and unified department including a strategic plan for each major program area that includes implementation steps, evaluation measures, and methods for collaboration among programs;

(b) Recommendations for any changes in existing programs and functions of both agencies, including new initiatives and possible transfer of programs and functions to and from other departments;

(c) Implementation steps necessary to bring about operation of the combined department as a single entity;

(d) Benchmarks by which to measure progress and to evaluate the performance and effectiveness of the department's efforts; and

(e) Strategies for coordinating and maximizing federal, state, local, international, and private sector support for community and economic development efforts within the state.

(3) In developing this plan, the directors shall establish an advisory committee of representatives of groups using services and programs of both departments. The advisory committee shall include representatives of cities, counties, port districts, small and large businesses, labor unions, associate development organizations, low-income housing interests, housing industry, Indian tribes, community action programs, public safety groups, nonprofit community and development organizations, international trade organizations, minority and women business organizations, and any other organizations the directors determine should have input to the plan." [1994 c 5 s 1; 1993 c 280 s 8.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

RCW 43.330.010 Definitions. Unless the context clearly requires otherwise, the definitions in this section apply throughout this chapter.

(1) "Associate development organization" means a local economic development nonprofit corporation that is broadly representative of community interests.

(2) "Department" means the department of commerce.

(3) "Director" means the director of the department of commerce.

(a) A family resource center is designed to meet the needs, cultures, and interests of the communities that the family resource center serves.

(b) Family services may be delivered directly to a family at the family resource center by family resource center staff or by providers who contract with or have provider agreements with the family resource center. Any family resource center that provides family services shall comply with applicable state and federal laws and regulations regarding the delivery of such family services, unless required waivers or exemptions have been granted by the appropriate governing body.

(c) Each family resource center shall have one or more family advocates who screen and assess a family's needs and strengths. If requested by the family, the family advocate shall assist the family with setting its own goals and, together with the family, develop a written plan to pursue the family's goals in working towards a greater level of self-reliance or in attaining self-sufficiency.

mile is a "frontier one" county. A county with a population density of more than 21 but fewer than 50 persons per square mile is a "frontier two" county. Every frontier county is also a rural county under this chapter and eligible for all benefits, services, and programs of a rural county unless a frontier county is specifically excluded in the authorizing statute.

Intent—Findings—2021 c 39: See note following RCW 74.14C.010.

Findings—Purpose—Intent—2007 c 322: "(1) The legislature finds that:

(a) Microenterprises are an important portion of Washington's economy, providing approximately twenty percent of the employment in Washington and playing a vital role in job creation.

(b) While community-based microenterprise development organizations have expanded their assistance to their microentrepreneur customers in recent years, there remains a lack of access to capital, training, and technical assistance for low-income microentrepreneurs.

(c) Support for microenterprise development offers a means to expand business and job creation in low-income communities in both rural and urban areas of the state.

(d) Local and state charitable foundation support, federal program funding, and private sector support can be leveraged by a statewide program for development of microenterprises.

(2) It is the purpose of this act to assist microenterprises in job creation by increasing the training, technical assistance, and financial resources available to microenterprises. It is the intention of the legislature to carry out this purpose by enabling the *department of community, trade, and economic development to contract with a statewide microenterprise association with the potential to provide organizational support and administer grants to local microenterprise development organizations, subject to the requirements of this act, and to leverage additional funds from sources other than moneys appropriated from the general fund." [2007 c 322 s 1.]

(6) (a) Subject to the availability of amounts appropriated for this specific purpose, by December 1, 2010, the department, in conjunction with the small business development center, must prepare and present to the governor and appropriate legislative committees a specific, actionable plan to increase access to capital and technical assistance to small businesses and entrepreneurs beginning with the 2011-2013 biennium. In developing the plan, the department and the center may consult with the Washington state microenterprise association, and with other government, nonprofit, and private organizations as necessary. The plan must identify:

(i) Existing sources of capital and technical assistance for small businesses and entrepreneurs;

(ii) Critical gaps and barriers to availability of capital and delivery of technical assistance to small businesses and entrepreneurs;

(iii) Workable solutions to filling the gaps and removing barriers identified in (a) (ii) of this subsection; and

[2010 c 165 s 2; 2005 c 136 s 13; 1993 c 280 s 9.]

Findings—Intent—2010 c 165: "The legislature finds that small businesses and entrepreneurs are a fundamental source of economic and community vitality for our state. They employ state residents, pay state taxes, purchase goods and services from local and regional companies, and contribute to our communities in many other ways. The legislature finds that small businesses and entrepreneurs need increased access to capital and technical assistance in order to maximize their potential. The legislature intends that the department of commerce and the small business development center each build upon their existing relevant statutory missions and authorities by collaborating on a specific plan to expand services to small businesses and entrepreneurs beginning in the 2011-2013 biennium." [2010 c 165 s 1.]

Tacoma world trade center—1993 c 134: "The legislature recognizes that export opportunities for small and medium-sized businesses stimulates economic growth. Within current resources, the department of trade and economic development shall work with the Tacoma world trade center, to assist small and medium-sized businesses with export opportunities." RCW 43.330.062 Recruitment and retention of business—Protocols for associate development organizations and department staff. In carrying out its responsibilities under RCW 43.330.060 and 43.330.080,

the department must establish protocols to be followed by associate development organizations and department staff for the recruitment and retention of businesses. The protocols must specify the circumstances under which an associate development organization is required to notify the department of its business recruitment and retention efforts and when the department must notify the associate development organization of its business recruitment and retention efforts. The protocols established may not require the release of proprietary information or the disclosure of information that a client company has requested remain confidential. The department must require compliance with the protocols in its contracts with associate development organizations. [2011 c 286 s 1.]

RCW 43.330.068 International companies investing in Washington—Eligibility for excise tax incentives. An international company investing in Washington is included within the definition of person in RCW 82.04.030 and is eligible for excise tax incentives provided in Title 82 RCW in the same manner as any domestic company. [2005 c 135 s 2.]

Finding—Intent—2005 c 135: "The legislature finds that many international companies with an interest in operating in Washington are not aware of the various tax incentives that are available. It is the intent of the legislature to ensure that these international companies understand that they are eligible for these business and occupation tax and sales and use tax deferrals when investing in Washington. It is the further intent of the legislature that the *department of community, trade, and economic development and associate development organizations make clear to international companies that they are eligible for the state's various tax incentives." [2005 c 135 s 1.]

***Reviser's note:** The "department of community, trade, and economic development" was renamed the "department of commerce" by 2009 c 565.

RCW 43.330.070 Local development capacity—Training and technical assistance. (1) The department shall work closely with local communities to increase their capacity to respond to economic, environmental, and social problems and challenges. The department shall coordinate the delivery of development services and technical assistance to local communities or regional areas. It shall promote partnerships between the public and private sectors and between state and local officials to encourage appropriate economic growth and opportunity in communities throughout the state. The department shall promote appropriate local development by: Supporting the ability of communities to develop and implement strategic development plans; assisting businesses to start up, maintain, or expand their operations; encouraging public infrastructure investment and private and public capital investment in local communities; supporting efforts to manage growth and provide affordable housing and housing services; providing for the identification and preservation of the state's historical and cultural resources; and expanding employment opportunities.

(2) The department shall define a set of services including training and technical assistance that it will make available to local communities, community-based nonprofit organizations, regional areas, or businesses. The department shall simplify access to these programs by providing more centralized and user-friendly information and referral. The department shall coordinate community and economic development efforts to minimize program redundancy and maximize accessibility. The department shall develop a set of criteria for targeting services to local communities. To the extent funding is made available for this purpose, the department shall provide technical assistance or enter into contracts to provide technical assistance to assist local communities in developing competitive applications for federal funding.

(3) The department shall develop a coordinated and systematic approach to providing training to community-based nonprofit organizations, local communities, and businesses. The approach shall be designed to increase the economic and community development skills available in local communities by providing training and funding for training for local citizens, nonprofit organizations, and businesses. The department shall emphasize providing training in those communities most in need of state assistance. [2024 c 223 s 2; 1993 c 280 s 10.]

Findings—Intent—2024 c 223: "The legislature finds that Washington ranks poorly among all states in the amount of federal grants received relative to income taxes collected from its residents.

The legislature also finds that many of Washington's communities, particularly in slow-growing rural areas, face an economic development "chicken and egg" dilemma in which they need to secure matching dollars in order to obtain federal economic development dollars that would increase the local tax base, local revenue, and local employment and incomes.

The legislature further finds that recent federal legislation provides funding for economic development clusters that Washington state has invested in as part of its economic development strategy, including broadband and clean energy, buildings, and transportation. The federal legislation includes the infrastructure investment and jobs act, P.L. 117-58, the creating helpful incentives to produce semiconductors and science act, P.L. 117-167, and the inflation reduction act, P.L. 117-169.

The legislature further finds that increasing the availability of federal grant dollars in local communities provides a benefit of a reasonably general character to a significant part of the public.

Therefore, the legislature intends to continue and expand its efforts to increase the capacity of the department of commerce to assist local communities in successfully applying for federal grant dollars including through providing local communities with state matching funds for securing federal grants." [2024 c 223 s 1.]

RCW 43.330.075 Local government regulation and policy handouts—Technical assistance. The department shall provide technical assistance in the compilation of and support in the production of the handouts to be published and kept current by counties and cities under RCW 36.70B.220. [1996 c 206 s 11.]

intends to bolster the partnership between state and local economic development efforts, provide increased funding for local economic development services, and increase local economic development service effectiveness, efficiency, and outcomes." [2007 c 249 s 1.]

Findings—2003 c 153: "The legislature finds that tourism is a growing sector of the Washington economy. Washington has a diverse geography, geology, climate, and natural resources, and offers abundant opportunities for wildlife viewing. Nature-based tourism is the fastest growing outdoor activity and segment of the travel industry and the state can take advantage of this by marketing Washington's natural assets to international as well as national tourist markets. Expanding tourism efforts can provide Washington residents with jobs and local communities with needed revenues.

The legislature also finds that current efforts to promote Washington's natural resources and nature-based tourism to national and international markets are too diffuse and limited by funding and that a collaborative effort among state and local governments, tribes, and private enterprises can serve to leverage the investments in nature-based tourism made by each." Estimated economic impact must include evidence of anticipated private investment, job creation, innovation, and commercialization. The director must require evidence that zone applicants will promote commercialization, innovation, and collaboration among zone residents.

(9) If the director finds at any time after the initial year of designation that an innovation partnership zone is failing to meet the performance standards required in its contract with the department, the director may withdraw such designation and cease state funding of the zone.

(10) The department must convene annual information sharing events for innovation partnership zone administrators and other interested parties.

(11) An innovation partnership zone must annually provide performance measures as required by the director, including but not limited to private investment measures, job creation measures, and measures of innovation such as licensing of ideas in research institutions, patents, or other recognized measures of innovation.

(b) The department shall appoint: (i) Representatives of local law enforcement from a list provided by the Washington association of sheriffs and police chiefs; (ii) representatives of county prosecutors from a list provided by the Washington association of prosecuting attorneys; and (iii) representatives of financial institutions.

(c) Each task force shall:

(i) Hold regular meetings to discuss emerging trends and threats of local financial fraud and identity theft crimes;

(ii) Set priorities for the activities for the task force;

(iii) Apply to the department for funding to (A) hire prosecutors and/or law enforcement personnel dedicated to investigating and prosecuting financial fraud and identity theft crimes; and (B) acquire other needed resources to conduct the work of the task force;

(iv) Establish outcome-based performance measures; and

Revenue to the account may include appropriations, revenues generated by the surcharge imposed in RCW 62A.9A-525, federal funds, and any other gifts or grants. Expenditures from the account may be used only to support the activities of the financial fraud and identity theft crime investigation and prosecution task forces and the program administrative expenses of the department, which may not exceed ten percent of the amount appropriated.

(4) For purposes of this section, "financial fraud and identity theft crimes" includes those that involve: Check fraud, chronic unlawful issuance of bank checks, embezzlement, credit/debit card fraud, identity theft, forgery, counterfeit instruments such as checks or documents, organized counterfeit check rings, and organized identification theft rings.

(5) This section expires July 1, 2030. [2020 c 60 s 1; 2015 c 65 s 1; 2009 c 565 s 16; 2008 c 290 s 1.]

RCW 43.330.320 Obtaining energy efficiency services—Awarding grants to financial institutions—Credit enhancements. (1) The department must: (a) Establish a process to award grants on a

competitive basis to provide grants to financial institutions for the purpose of creating credit enhancements, such as loan loss reserve funds as specified in RCW 43.330.330 and 43.330.350, and consumer financial products and services that will be used to obtain energy efficiency services; and (b) develop criteria, in consultation with the department of financial institutions, regarding the extent to which funds will be provided for the purposes of credit enhancements and set forth principles for accountability for financial institutions receiving funding for credit enhancements.

(2) The department must:

(a) Give priority to financial institutions that provide both consumer financial products or services and direct outreach;

(b) Approve any financing mechanisms offered by local municipalities under RCW 43.330.350; and

(c) Require any financial institution or other entity receiving funding for credit enhancements to:

(i) Provide books, accounts, and other records in such a form and manner as the department may require;

(ii) Provide an estimate of projected loan losses; and

(iii) Provide the financial institution's plan to manage loan loss risks, including the rationale for sizing a loan loss reserve and the use of other credit enhancements, as applicable. [2009 c 379 s 205.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70A.50.010.

RCW 43.330.330 Funding energy efficiency improvements—Risk reduction mechanisms—Legislative intent. (1) The legislature finds that the creation and use of risk reduction mechanisms will promote greater involvement of local financial institutions and other financing mechanisms in funding energy efficiency improvements and will achieve greater leverage of state and federal dollars. Risk reduction mechanisms will allow financial institutions to lend to a broader pool of applicants on more attractive terms, such as potentially lower rates and longer loan terms. Placing a portion of funds in long-term risk reduction mechanisms will support a sustained level of energy efficiency investment by financial institutions while providing funding to projects quickly.

(2) It is the intent of the legislature to leverage new federal funding aimed at promoting energy efficiency projects, improving energy efficiency, and increasing family-wage jobs. To this end, the legislature intends to invest a portion of all federal funding, subject to federal requirements, for energy efficiency projects in financial mechanisms that will provide for maximum leverage of financing. [2009 c 379 s 206.]

Finding—Intent—Effective date—2009 c 379: See notes following RCW 70A.50.010.

RCW 43.330.340 Appliance efficiency rebate program. The department may create an appliance efficiency rebate program with available funds from the energy efficient appliances rebate program

authorized under the federal energy policy act of 2005 (P.L. 109-58).
[2009 c 379 s 207.]

Finding—Intent—Effective date—2009 c 379: See notes following
RCW 70A.50.010.

RCW 43.330.350 Use of moneys by local municipalities to leverage financing for energy efficiency projects. (1) Local municipalities receiving federal stimulus moneys through the federal energy efficiency and conservation block grant program or state energy program are authorized to use those funds, subject to federal requirements, to establish loan loss reserves or toward risk reduction mechanisms, such as loan loss reserves, to leverage financing for energy efficiency projects.

(2) Interest rate subsidies, financing transaction cost subsidies, capital grants to energy users, and other forms of grants and incentives that support financing energy efficiency projects are authorized uses of federal energy efficiency funding.

(3) Financing mechanisms offered by local municipalities under this section must conform to all applicable state and federal rules and regulations. [2009 c 379 s 208.]

Finding—Intent—Effective date—2009 c 379: See notes following
RCW 70A.50.010.

RCW 43.330.360 Findings—Involvement of state bond authorities in financing energy efficiency projects. (1) The legislature finds that the state bond authorities have capacities that can be applied to financing energy efficiency projects for their respective eligible borrowers: Washington economic development finance authority for industry; Washington state housing finance commission for single-family and multifamily housing, commercial properties, agricultural properties, and nonprofit facilities; Washington higher education facilities authority for private, nonprofit higher education; and Washington health care facilities authority for hospitals and all types of health clinics.

(2)(a) Subject to federal requirements, the state bond authorities may accept and administer an allocation of the state's share of the federal energy efficiency funding for designing energy efficiency finance loan products and for developing and operating energy efficiency finance programs. The state bond authorities shall coordinate with the department on the design of the bond authorities' program.

(b) The department may make allocations of the federal funding to the state bond authorities and may direct and administer funding for outreach, marketing, and delivery of energy services to support the programs by the state bond authorities.

(c) The legislature authorizes a portion of the federal energy efficiency funds to be used by the state bond authorities for credit enhancements and reserves for such programs.

(3) The Washington state housing finance commission may:

(a) Issue revenue bonds as the term "bond" is defined in RCW 43.180.020 for the purpose of financing loans for energy efficiency

and renewable energy improvement projects in accordance with RCW 43.180.150;

(b) Establish eligibility criteria for financing that will enable it to choose applicants who are likely to repay loans made or acquired by the commission and funded from the proceeds of federal funds or commission bonds; and

(c) Participate fully in federal and other governmental programs and take such actions as are necessary and consistent with chapter 43.180 RCW to secure to itself and the people of the state the benefits of programs to promote energy efficiency and renewable energy technologies. RCW 43.330.365 Electric vehicle incentive account. The electric vehicle incentive account is created in the state treasury. Revenues to the account shall consist of appropriations and transfers by the legislature and all other moneys directed for deposit into the account. Moneys in the account may only be spent after appropriation. Expenditures from the account may be used for programs and incentives that promote the purchase or conversion to alternative fuel vehicles to further state climate goals under RCW 70A.45.020 and environmental justice goals under 70A.02 RCW, including but not limited to:

***Reviser's note:** RCW 28C.18.170 was repealed by 2023 c 231 s 8.

Effective date—2012 c 229 ss 101, 117, 401, 402, 501 through 594, 601 through 609, 701 through 708, 801 through 821, 902, and 904: See note following RCW 28B.77.005.

Findings—2010 c 187: "(1) The legislature finds that:

(a) Washington's forest products industry plays a critical economic and environmental role in the state. The industry provides a wide range of services and goods both to Washingtonians and people around the world and is vital to the well-being and lifestyle of the people of the state of Washington; and

(b) It is in the best interest of the state to support and enhance the forest products industry.

(2) The legislature further finds that the state's forest practices are sustainably managed according to some of the most stringent riparian growing and harvest rules of any state in the nation or in the world, and that the state of Washington has received fifty-year assurances from the federal government that the state's forest practices satisfy the requirements of the federal endangered species act for aquatic species. As part of their environmental stewardship, forestland owners in Washington have repaired or removed nearly three thousand fish passage barriers, returned nearly twenty-five hundred miles of forest roads to their natural condition, and opened up nearly fifteen hundred miles of riparian salmonid habitat.

(3) The legislature further finds that Washington's forests naturally create habitat for fish and wildlife, clean water, and carbon storage; all environmental benefits that are lost when land is converted out of working forestry into another use. In recognition of forestry's benefits, the international panel on climate change has reported that a sustainable forest management strategy aimed at maintaining or increasing forest carbon stocks, while producing an annual sustained yield of timber, fiber, wood products, or energy from

the forest, will generate the largest sustained carbon mitigation benefit.

(4) The legislature further finds that the forest products industry is a seventeen billion dollar industry, making it Washington's second largest manufacturing industry. The forest products industry alone provides nearly forty-five thousand direct jobs and one hundred sixty-two thousand indirect jobs, many located in rural areas.

(5) The legislature further finds that working forests help generate wealth through recreation and tourism, the retention and creation of green jobs, and through the production of wood products and energy, a finding supported by the United States secretary of agriculture." [2010 c 187 s 1.]

RCW 43.330.400 Broadband mapping account—Federal broadband data improvement act funding—Coordination of broadband mapping activities.

(1) The broadband mapping account is established in the custody of the state treasurer. The department shall deposit into the account such funds received from legislative appropriation, federal funding, and donated funds from private and public sources. Expenditures from the account may be used only for the purposes of RCW 43.330.403 through 43.330.409. Only the director of the department or the director's designee may authorize expenditures from the account. The account is subject to the allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) The department is the single eligible entity in the state for purposes of the federal broadband mapping activities.

(3) Federal funding received by the department for broadband mapping activities must be used in accordance with any federal requirements and, subject to those requirements, may be distributed by the department on a competitive basis to other entities in the state.

(4) The department shall consult with the office of financial management and the utilities and transportation commission in coordinating broadband mapping activities. In carrying out any broadband mapping activities, the provisions of P.L. 110-385, Title I, regarding trade secrets, commercial or financial information, and privileged or confidential information submitted by the federal communications commission or a broadband provider are deemed to encompass the consulted agencies. Findings—Intent—Purpose—2009 c 509: "(1) The legislature finds that the deployment and adoption of high-speed internet services and technology advancements enhance economic development and public safety for the state's communities. Such deployment also offers improved health care, access to consumer and legal services, increased educational and civic participation opportunities, and a better quality of life for the state's residents. The legislature further finds that improvements in the deployment and adoption of high-speed internet services and the strategic inclusion of technology

advancements and technology education are critical to ensuring that Washington remains competitive and continues to provide a skilled workforce, attract businesses, and stimulate job growth.

(2) The legislature intends to support strategic partnerships of public, private, nonprofit, and community-based sectors in the continued growth and development of high-speed internet services and information technology. The legislature further intends to ensure that all Washington citizens, businesses, schools, and organizations are able to obtain and utilize broadband fully, regardless of location, economic status, literacy level, age, disability, structure, or size. In addition, the legislature intends that a statewide assessment of the availability, location, service levels, and other characteristics of high-speed internet services and other advanced telecommunications services in the state be conducted.

(3) In recognition of the importance of broadband deployment and adoption to the economy, health, safety, and welfare of the people of Washington, it is the purpose of this act to make high-speed internet service more readily available throughout the state, especially in areas and for populations with a low utilization rate." [2009 c 509 s 1.]

Effective date—2009 c 509: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect July 1, 2009." [2009 c 509 s 16.]

(a) Develop an interactive website to allow residents to self-report whether high-speed internet is available at their home or residence and at what speed; and

(b) Conduct a detailed survey of all high-speed internet infrastructure owned or leased by state agencies and create a geographic information system map of all high-speed internet infrastructure owned or leased by the state.

(2) State agencies responding to a survey request from the department under subsection (1)(b) of this section shall respond in a reasonable and timely manner, not to exceed one hundred twenty days. The department shall request of state agencies, at a minimum:

(a) The total bandwidth of high-speed internet infrastructure owned or leased;

(b) The cost of maintaining that high-speed internet infrastructure, if owned, or the price paid for the high-speed internet infrastructure, if leased; and

(c) The leasing entity, if applicable.

(3) The department may adopt rules as necessary to carry out the provisions of this section.

(4) For purposes of this section, "state agency" includes every state office, department, division, bureau, board, commission, or other state agency. [2011 1st sp.s. c 43 s 604; 2009 c 509 s 3. Formerly RCW 43.105.372.]

RCW 43.330.406 Procurement of geographic information system map—Accountability and oversight structure—Application of public records act.

(1) The department is authorized, through a competitive bidding process, to procure on behalf of the state a geographic information system map detailing high-speed internet infrastructure, service availability, and adoption. This geographic information system map may include adoption information, availability information, type of high-speed internet deployment technology, and available speed tiers for high-speed internet based on any publicly available data.

(2) The department may procure this map either by:

(a) Contracting for and purchasing a completed map or updates to a map from a third party; or

(b) Working directly with the federal communications commission to accept publicly available data.

(3) The department shall establish an accountability and oversight structure to ensure that there is transparency in the bidding and contracting process and full financial and technical accountability for any information or actions taken by a third-party contractor creating this map.

(4) In contracting for purchase of the map or updates to a map in subsection (2)(a) of this section, the department may take no action, nor impose any condition on the third party, that causes any record submitted by a public or private broadband service provider to the third party to meet the standard of a public record as defined in RCW 42.56.010. This prohibition does not apply to any records delivered to the department by the third party as a component of the map. For the purpose of RCW 42.56.010(3), the purchase by the department of a completed map or updates to a map may not be deemed use or ownership by the department of the underlying information used by the third party to complete the map.

(5) Data or information that is publicly available as of July 1, 2009, will not cease to be publicly available due to any provision of chapter 509, Laws of 2009. [2011 1st sp.s. c 43 s 605; 2009 c 509 s 4. Formerly RCW 43.105.374.]

(a) The geographic areas of greatest priority for the deployment of advanced telecommunications infrastructure in the state;

(b) A detailed explanation of how any amount of funding received from the federal government for the purposes of broadband mapping, deployment, and adoption will be or have been used; and

(c) A determination of how nonfederal sources may be utilized to achieve the purposes of broadband mapping, deployment, and adoption activities in the state.

(2) To the greatest extent possible, the initial report should be based upon the information identified in the geographic system maps developed under the requirements of this chapter.

(3) The initial report should be delivered to the appropriate committees of the legislature as soon as feasible, but no later than January 18, 2010.

(4) Any future reports prepared by the department based upon the requirements of subsection (1) of this section should be delivered to the appropriate committees of the legislature by January 15th of each year. [2011 1st sp.s. c 43 s 606; 2009 c 509 s 5. Formerly RCW 43.105.376.]

Findings—Intent—2022 c 266: "The legislature recognizes permanent supportive housing as an evidence-based practice to ending the cycle of chronic homelessness and creating affordable housing for people living with behavioral health conditions, other disabling conditions, and extremely low incomes. The legislature finds that as greater investment has been allocated for permanent supportive housing capital, operations, maintenance, and services in order to meet the need in communities across the state, greater coordination of state and local resources is required to ensure these resources are being leveraged effectively so that the maximum number of high quality permanent supportive housing units are created each year. Therefore, the legislature intends to create a permanent supportive housing advisory committee to provide advice, recommendations, and stakeholder engagement of resource coordination to bring high quality permanent supportive housing to scale as efficiently as possible and to add a permanent supportive housing representative to the affordable housing advisory board." The principal and interest of the endowment fund must be maintained until such time as the governing board policy specifies except for the costs and expenses of the state treasurer and the state investment board otherwise provided for in chapter 120, Laws of 2000.

(3) "Governing board" means the developmental disabilities endowment governing board in *RCW 43.330.205.

The money in each of the individual accounts is held in trust as provided for in subsection (2) of this section, and shall not be considered state funds or revenues of the state. The governing board serves as administrator, manager, and recordkeeper for the individual trust accounts for the benefit of the individual beneficiaries. RCW 43.330.431 Developmental disabilities endowment—Trust fund.

(1) The developmental disabilities endowment trust fund is created in the custody of the state treasurer. Expenditures from the fund may be used only for the purposes of the developmental disabilities endowment established under this chapter, except for expenses of the state investment board and the state treasurer as specified in subsection (2) of this section. Only the developmental disabilities endowment governing board or the board's designee may authorize expenditures from the fund. The fund shall retain its interest earnings in accordance with RCW 43.79A.040.

(2) The developmental disabilities endowment governing board shall deposit in the fund all money received for the program, including state appropriations and private contributions. Disbursements from the fund are exempt from appropriations and the allotment provisions of chapter 43.88 RCW. However, money used for program

administration by the department or the governing board is subject to the allotment and budgetary controls of chapter 43.88 RCW, and an appropriation is required for these expenditures. [2000 c 120 s 3; 1999 c 384 s 2. Formerly RCW 43.70.731, 43.330.200.]

Intent—1999 c 384: "The legislature recognizes that the main and most enduring support for persons with developmental disabilities, along with public resources, is their immediate and extended families. The legislature recognizes that these families are searching for ways to provide for the long-term continuing care of their disabled family member when the family can no longer provide that care. It is the intent of the legislature to encourage and assist families to engage in long-range financial planning and to contribute to the lifetime care of their disabled family member. To further these objectives, this chapter is enacted to finance lifetime services and supports for persons with developmental disabilities through an endowment funded jointly by the investment of public funds and dedicated family contributions.

The establishment of this endowment is not intended to diminish the state's responsibility for funding services currently available to future endowment participants, subject to available funding, nor is it the intent of the legislature, by the creation of this public/private endowment, to impose additional, unintended financial liabilities on the public." RCW 43.330.434 Developmental disabilities endowment—Endowment principles. The design, implementation, and administration of the developmental disabilities endowment shall be governed by the following principles:

(1) The design and operation of the endowment should reward families who set aside resources for their child's future care and provide incentives for continued caregiving by the family.

(2) The endowment should encourage financial planning and reward caregiving by a broad range of families, not just those who have substantial financial resources.

(3) Families should not feel compelled to contribute to the endowment in order to meet the needs of continuing care for their child.

(4) All families should have equal access to developmental disabilities services not funded through the endowment regardless of whether they contribute to the endowment.

(5) Services funded through the endowment should be stable, ongoing, of reasonable quality, and respectful of individual and family preferences.

(6) Endowment resources should be expended economically in order to benefit as many families as possible.

(7) Endowment resources should be managed prudently so that families can be confident that their agreement with the endowment on behalf of their child will be honored.

(8) The private financial contribution on behalf of each person receiving services from the endowment shall be at least equal to the state's contribution to the endowment.

(9) In order to be matched with funding from the state's contribution to the endowment, the private contribution on behalf of a beneficiary must be sufficient to support the beneficiary's approved service plan for a significant portion of the beneficiary's anticipated remaining lifetime.

(10) The rate that state appropriations to the endowment are used to match private contributions shall be such that each legislative appropriation to the developmental disabilities endowment trust fund, including principal and investment income, is not depleted in a period of less than five years.

(11) Private contributions made on behalf of a particular individual, and the associated state match, shall only be used for services provided upon that person's behalf.

(12) State funds contributed to the developmental disabilities endowment trust fund are to support the individual trust accounts established by individual private contributions made by families or other interested persons for named individual beneficiaries.

(13) The governing board shall explore methods to solicit private donations. The governing board shall explore mechanisms to support individuals with developmental disabilities who do not have individual private contributions made on their behalf. The governing board shall establish policies for the use of any private donations.

(14) Types of services funded by money managed through the developmental disabilities endowment trust fund shall be approved by the governing board or its designee. [2000 c 120 s 6; 1999 c 384 s 5. Formerly RCW 43.70.734, 43.330.220.]

The proposed operating plan shall be consistent with the endowment principles specified in *RCW 43.330.220. The plan shall address at least the following elements:

(1) The recommended types of services to be available through the endowment program and their projected average costs per beneficiary;

(2) An assessment of the number of people likely to apply for participation in the endowment under alternative rates of matching funds, minimum service year requirements, and contribution timing approaches;

(3) An actuarial analysis of the number of disabled beneficiaries who are likely to be supported under alternative levels of public contribution to the endowment, and the length of time the beneficiaries are likely to be served, under alternative rates of matching funds, minimum service year requirements, and contribution timing approaches;

(4) Recommended eligibility criteria for participation in the endowment program;

(5) Recommended policies regarding withdrawal of private contributions from the endowment in cases of movement out of state, death of the beneficiary, or other circumstances;

(6) Recommended matching rate of public and private contributions and, for each beneficiary, the maximum annual and lifetime amount of private contributions eligible for public matching funds;

(7) The recommended minimum years of service on behalf of a beneficiary that must be supported by private contributions in order for the contributions to qualify for public matching funds from the endowment;

(8) The recommended schedule according to which lump sum or periodic private contributions should be made to the endowment in order to qualify for public matching funds;

(9) A recommended program for educating families about the endowment, and about planning for their child's long-term future; and

(10) Recommended criteria and procedure for selecting an organization or organizations to administer the developmental disabilities endowment program, and projected administrative costs. [2000 c 120 s 7. Formerly RCW 43.70.735, 43.330.225.]

Purpose—Effective date—2010 c 271: See notes following RCW 43.330.005.

RCW 43.330.440 Multijurisdictional regulatory streamlining projects—Establishment—Reports. (1) The department, in collaboration with the office of regulatory assistance and the office of accountability and performance, must conduct multijurisdictional regulatory streamlining projects that each impact a specific industry sector or subsector within a specific geographical location. Planning for an initial pilot project must begin by September 1, 2013, and the initial pilot project must be underway by December 31, 2013. One or more projects must be implemented in each subsequent calendar year through 2019.

(2) The department must establish and implement a competitive process and select a minimum of one applicant comprised of a public-

private partnership for participation in each project. The initial pilot project must focus on the manufacturing sector. The department, in consultation with the economic development commission, must determine the sectors for subsequent projects. The criteria to be used to select projects must include:

- (a) Evidence of strong business commitment to the project;
 - (b) Evidence of strong commitment by the local government jurisdictions where the project is located to allocate necessary staff to the project and to streamline laws, rules, and administrative process requirements both within their jurisdictions and collaboratively across jurisdictions;
 - (c) Willingness to apply lean principles and tools to streamline the business regulatory experience;
 - (d) Identification of a lead partner capable of providing project management and coordination of partners;
 - (e) Support of the stakeholders necessary to implement the project;
 - (f) A plan and capacity to complete the project within the time frame; and
 - (g) A minimum of fifty percent match must be provided from project partners. The match may be cash, in-kind, or a combination of cash and in-kind.
- (3) The department is encouraged to collaborate with nonprofit industry organizations, the private sector, foundations, and other interested entities to successfully complete each project.
- (4) The department must pursue opportunities for nonstate funding as the match to the fifty percent or more provided by project partners. A maximum of fifty thousand dollars of state funds may be used for a project.
- (5) The department may contract with a third party for expertise and facilitation.
- (6) All state agencies with regulatory requirements that impact the project's industry sector must participate.
- (7) The state agencies, local jurisdictions, business partners, and other participants must jointly:
- (a) Develop a project plan to conduct a cross-jurisdictional review process;
 - (b) Identify and review all laws, rules, and administrative processes and requirements pertaining to the selected sector;
 - (c) Apply specific criteria to evaluate the extent to which the laws, rules, and administrative processes and requirements provide for consistent, clear, and efficient customer experiences while continuing to maintain public health, safety, and environmental standards;
 - (d) Develop an implementation plan and schedule that identifies priority streamlining actions;
 - (e) Present their recommendations to the department for comment and endorsement; and
 - (f) Present their recommendations to the Washington state economic development commission for comment, endorsement, and evaluation.
- (8) The department must document and distribute the streamlined laws, rules, processes, and other potentially replicable information, derived from the projects to the association of Washington cities and Washington state association of counties for distribution to their membership.
- (9) The department must brief the economic development committees of the legislature by January 15, 2014, on the status of the initial

pilot project, and must submit a report on the outcomes of the projects to the economic development committees of the legislature by January 15th of each calendar year, from 2015 through 2020. The department must include in the reports any streamlining recommendations identified in the projects that require statutory changes for implementation and any potentially replicable models, approaches, and tools that could be applied to other sectors and geographical areas. [2013 c 324 s 2.]

Findings—Intent—2013 c 324: "(1) The legislature finds that: Since 2010, the department of commerce and the office of regulatory assistance have convened and coordinated a number of cross-agency collaborative regulatory streamlining efforts focused on improving the regulatory experience for small businesses, while maintaining public health and safety; the department of commerce has established efficient and effective regulation as one of its four global priorities to support the mission to grow and improve jobs; the state auditor's office issued a regulatory performance audit in 2012 identifying many agency actions that can also improve the business community's ability to comply with regulatory requirements; and the Washington state economic development commission's 2012 comprehensive statewide strategy emphasized the need for smarter regulations in order to achieve long-term global competitiveness, prosperity, and economic opportunity for all the state's citizens.

(2) The legislature further finds that while individual agency streamlining activities result in improvements, businesses are required to interact with many state and local agencies, all with unique requirements, processes, forms, instructions, payment options, and electronic transaction capabilities. Cross-agency and cross-jurisdictional regulatory improvements are needed to meaningfully improve the overall business customer experience and ability to more easily understand and comply with requirements.

(3) Therefore, the legislature intends to authorize a business regulatory efficiency program administered by the department of commerce with the goal of providing an improved regulatory environment in Washington. By enhancing, simplifying, and better coordinating state and local regulatory processes for specific industry sectors, the amount of time it takes businesses to conduct their interactions with state government will decrease, compliance will increase, and businesses will have the opportunity to generate more revenue and create more jobs, thereby strengthening Washington's economy and overall global competitiveness." Findings—Intent—2021 c 258: See note following RCW 47.44.160.

Findings—2019 c 365: "The legislature finds that:

(1) Access to broadband is critical to full participation in society and the modern economy;

(2) Increasing broadband access to unserved areas of the state serves a fundamental governmental purpose and function and provides a public benefit to the citizens of Washington by enabling access to health care, education, and essential services, providing economic opportunities, and enhancing public health and safety;

(3) Achieving affordable and quality broadband access for all Washingtonians will require additional and sustained investment, research, local and community participation, and partnerships between private, public, and nonprofit entities;

(4) The federal communications commission has adopted a national broadband plan that includes recommendations directed to federal, state, and local governments, including recommendations to:

(a) Design policies to ensure robust competition and maximize consumer welfare, innovation, and investment;

(b) Ensure efficient allocation and management of assets that the government controls or influences to encourage network upgrades and competitive entry;

(c) Reform current universal service mechanisms to support deployment in high-cost areas, ensuring that low-income Americans can afford broadband, and supporting efforts to boost adoption and utilization; and

(6) Providing additional funding mechanisms to increase broadband access in unserved areas is in the best interest of the state. To that end, this act establishes a grant and loan program that will support the extension of broadband infrastructure to unserved areas. To ensure this program primarily serves the public interest, the legislature intends that any grant or loan provided to a private entity under this program must be conditioned on a guarantee that the asset or infrastructure to be developed will be maintained for public use for a period of at least fifteen years." RCW 43.330.539 Broadband office—Digital equity plan. (1) The office, in consultation with the digital equity forum, the utilities and transportation commission, and the department of social and health services, must develop a state digital equity plan.

(a) The office must seek any available federal funding for purposes of developing and implementing the state digital equity plan.

(b) The state digital equity plan must include such elements as the office determines are necessary to leverage federal funding.

(2) In developing the plan, the office must identify measurable objectives for documenting and promoting digital equity among underserved communities located in the state.

(3) By December 1, 2023, the office must submit a report to the governor and the appropriate committees of the legislature, including the following:

(a) The digital equity plan described in subsection (1) of this section and measurable objectives described in subsection (2) of this section;

(b) A description of how the office collaborated with the membership of the digital equity forum, state agencies, and key stakeholders to develop the plan including, but not limited to, the following:

(i) Community anchor institutions;

(ii) Local governments;

(iii) Local educational agencies;

(iv) Entities that carry out workforce development programs; and

(v) Broadband service providers;

(c) A description of federal funding available to advance digital equity in the state, including any available information on the extent to which state residents have enrolled in the affordable connectivity program through an approved provider; and

(d) Recommendations of additional state law or policy that can be targeted to help improve broadband adoption and affordability for state residents. This may include recommendations of ongoing subsidies that the state can provide to low-income individuals and anchor institutions, as well as identification of revenue sources that other states or jurisdictions have developed to fund such subsidies or discounted rates.

(4) For the purpose of this section, "office" means the statewide broadband office established in RCW 43.330.532. [2022 c 265 s 201.]

Short title—2022 c 265: "This act may be known and cited as the digital equity act." [2022 c 265 s 101.]

Findings—Intent—2022 c 265: "(1) The legislature finds that:

(a) Access to the internet is essential to participating in modern day society including, but not limited to, attending school and work, accessing health care, paying for basic services, connecting with family and friends, civic participation, and economic survival.

(b) For too many people in both rural and urban areas, the cost of being online is unaffordable. The legislature recognizes that building the last mile of broadband to the home is prohibitively expensive and that urban areas that are home to people earning low incomes continue to face digital redlining. Across the state there is

a lack of affordable plans, barriers to enrolling in appropriate broadband plans, and barriers to fully utilize the opportunities that broadband offers.

(c) The COVID-19 pandemic has further highlighted the need for affordable access, devices, and skills to use the internet.

(d) The need for more accessible and affordable internet is felt more acutely among specific sectors of the population, especially Washington residents in rural areas, people who are currently earning low incomes, seniors and others who lack the skills necessary to get online, people with first languages other than English, immigrant communities, and people with disabilities.

(e) The federal government is allocating considerable sums for investment in digital equity that the state broadband office will help to leverage for residents across Washington. Continued comprehensive efforts, including coordination with tribal partners, are needed to ensure truly equitable access. The legislature recognizes that there will be a need for ongoing development and maintenance of broadband infrastructure. The legislature also recognizes that there is a need for ongoing outreach by community-based partnerships to provide enrollment assistance to lower the cost of internet subscriptions and devices.

(2) Therefore, the legislature intends to broaden access to the internet, the appropriate devices, and the skills to operate online safely and effectively so that all people in Washington can fully participate in our society, democracy, and economy by expanding assistance and support programs offered in the state and establishing the governor's statewide broadband office as a central access point to such programs." [2022 c 265 s 102.]

RCW 43.330.5393 Digital equity planning grant program. (1)

Subject to the availability of funds appropriated for this specific purpose, the department shall establish a digital equity planning grant program.

(2) (a) This program must provide grants to local governments, institutions of higher education, workforce development councils, or other entities to fund the development of a digital equity plan for a discrete geographic region of the state. Only the director or the director's designee may authorize expenditures.

(b) Priority must be given for grant applications:

(i) Accompanied by express support from community or neighborhood-based nonprofit organizations, public development authorities, federally recognized Indian tribes in the state, or other community partners and partners from the categories of institutions identified in RCW 43.330.421; and

(ii) That intend to use community-based participatory action research methods as a part of the proposed plan.

(3) An applicant must submit an application to the department in order to be eligible for funding under this section.

(4) The digital equity forum shall review grant applications and provide input to the department regarding the prioritization of applications in awarding grants among eligible applicants under the program.

(5) The department must:

(a) Pursuant to subsection (2) (b) of this section, evaluate and rank applications using objective criteria such as the number of underserved populations served and subjective criteria such as the

degree of support and engagement evidenced by the community who will be served;

(b) Consider the input provided by the forum, as provided in subsection (4) of this section, in awarding grants under the digital equity planning grant program; and

(c) Consider the extent to which the mix of grants awarded would increase in the number of prekindergarten through 12th grade students gaining access to greater levels of digital inclusion as a factor in awarding grants under the digital equity planning grant program.

(6) The department shall develop criteria for what the digital equity plans must include.

(7) The department may adopt rules to implement this section.

(e) Recommend reforms to current universal service mechanisms.

(3) The directors of the governor's statewide broadband office and the Washington state office of equity are responsible for appointing participating members of the digital equity forum and no appointment may be made unless each director concurs in the appointment. In making appointments, the directors must prioritize appointees representing:

(a) Federally recognized tribes;

(b) State agencies involved in digital equity; and

(c) Underserved and unserved communities, including historically disadvantaged communities.

(4) A majority of the participating members appointed by the directors must appoint an administrative chair for the forum.

(5) In addition to members appointed by the directors, four legislators may serve on the digital equity forum in an ex officio capacity. Legislative participants must be appointed as follows:

(a) The speaker of the house of representatives must appoint one member from each of the two largest caucuses of the house of representatives; and

(b) The president of the senate must appoint one member from each of the two largest caucuses of the senate.

(6) (a) Funds appropriated to the forum may be used to compensate, for any work done in connection with the forum, additional persons who have lived experience navigating barriers to digital connectivity and digital equity.

(b) Each member of the digital equity forum shall serve without compensation but may be reimbursed for travel expenses as authorized in RCW 43.03.050 and 43.03.060.

(7) Staff for the digital equity forum must be provided by the governor's statewide broadband office and the Washington state office of equity. The governor's statewide broadband office and the Washington state office of equity are jointly responsible for transmitting the recommendations of the digital equity forum to the legislature, consistent with RCW 43.01.036, by October 28, 2025, and every odd-numbered year thereafter. (7) This section expires January 1, 2029. [2023 c 189 s 1; 2021 c 327 s 2.]

Finding—2021 c 327: "The legislature finds that community engagement is a foundational principle of successful community policing practices. When individuals and neighborhood groups are encouraged to partner with law enforcement, a powerful alliance can be built on mutual trust and respect and mitigate polarization between police departments and community groups. A successful community-police partnership leads to the achievement of shared goals of improving safety and quality of life and ensuring that public safety services are tailored to the needs of local communities.

The legislature recognizes current efforts in Washington to mobilize communities to insist on equitable and accountable practices that will result in community participation in public safety efforts as well as establish cooperative lines of communication between civilians and law enforcement. Laudable community engagement models such as the safe streets campaign in Pierce county, safe Yakima in Yakima county, and the Okanogan county community coalition are recognized to mitigate crime trends by engaging the community and law enforcement in cooperative efforts to improve public safety.

The department of commerce intends to foster community engagement with law enforcement officers through the creation of a community engagement project in 15 communities across the state of Washington with a mix of urban, rural, and suburban areas to facilitate community-law enforcement partnerships and improve police-community relations. The department will implement a project evaluation to measure and examine the impact of local initiatives on community engagement, neighborhood safety, and positive community-police relations.

The funded projects will facilitate the empowerment of communities to engage in crime prevention efforts through neighborhood organizing, law enforcement-community partnerships, youth mobilization, and business engagement." [2021 c 327 s 1.]

RCW 43.330.565 Office of renewable fuels—Established. (1) The statewide office of renewable fuels is established within the department. The office shall report to the director of the department. The office may employ staff as necessary to carry out the office's duties as prescribed by chapter 292, Laws of 2022, subject to the availability of amounts appropriated for this specific purpose.

(2) The purpose of the office is to leverage, support, and integrate with other state agencies to:

- (a) Accelerate comprehensive market development with assistance along the entire life cycle of renewable fuel projects;
- (b) Support research into and development and deployment of renewable fuel and the production, distribution, and use of renewable and green electrolytic hydrogen and their derivatives, as well as product engineering and manufacturing relating to the production and use of such hydrogen and its derivatives;
- (c) Drive job creation, improve economic vitality, and support the transition to clean energy;

(d) Further the development and use of alternative jet fuels as a productive industry in Washington;

(e) Enhance resiliency by using renewable fuels, alternative jet fuels, and green electrolytic hydrogen to support climate change mitigation and adaptations; and

(f) Partner with overburdened communities to ensure communities equitably benefit from renewable and clean fuels efforts. [2023 c 232 s 5; 2022 c 292 s 102.]

Intent—2023 c 232: See note following RCW 70A.535.010.

Findings—Intent—2022 c 292: "(1) The legislature finds that while hydrogen fuel has been used in a variety of applications in the state, the source of hydrogen has been derived from fossil fuel feedstocks, such as natural gas. Hydrogen is an essential building block and energy carrier molecule that is necessary in the production of conventional and renewable fuels and a valuable decarbonization tool when used in sectors such as marine, aviation, steel, aluminum, and cement, as well as surface transportation including heavy duty vehicles, such as transit, trucking, and drayage equipment. Hydrogen can be a carbon-free fuel with an energy per unit mass that is three to four times greater than jet fuel, whose energy can be extracted either through thermochemical (combustion) or electrochemical (fuel cell) processes. In both cases, the only by-product is water, instead of the greenhouse gases and other conventional and toxic pollutants that are emitted from using fossil fuels.

(2) The legislature further finds that the use of renewable hydrogen and hydrogen produced from carbon-free feedstocks through electrolysis is an essential tool to a clean energy ecosystem and emissions reduction for challenging infrastructure needs. Clean hydrogen fuel can be produced or "charged" closer to the generation of the electricity when the electrical supply grid has surplus energy, at times of low electricity use, such as evenings, then made available at times of higher need and convenient locations, such as fueling stations, avoiding the need to build or upgrade larger electrical infrastructure, including distribution systems, to meet higher peak demand for electricity.

(3) Therefore, the legislature intends by this act to establish policies and a framework for the state to become a national and global leader in the production and use of these hydrogen fuels. This act will create an office of renewable fuels to: Promote partnerships among industrial, transportation, agriculture, and commercial interests as well as fuel producers, the technology research sector, and public sector agencies; identify barriers to and opportunities for market development; provide greater clarity and certainty in regulatory and siting standards; provide incentives and financial assistance in the deployment of hydrogen fuel infrastructure; support a clean and just energy transition; help create good quality, clean energy jobs; and improve air quality in degraded areas, particularly

in communities that have borne disproportionate levels of air pollution from the combustion of fossil fuels." [2022 c 292 s 1.]

RCW 43.330.570 Office of renewable fuels—Duties. (1) The office shall:

(a) Coordinate with federally recognized tribes, local government, state agencies, federal agencies, private entities, the state's public four-year institutions of higher education, labor unions, and others to facilitate and promote multi-institution collaborations to drive research, development, and deployment efforts in the production, distribution, and use of alternative jet fuels and renewable fuels including, but not limited to, green electrolytic hydrogen;

(b) Review existing renewable fuels, alternative jet fuels, and green electrolytic hydrogen initiatives, policies, and public and private investments, and tax and regulatory incentives, including assessment of adequacy of feedstock supply and in-state feedstock, renewable fuels, and alternative jet fuels production;

(c) Consider funding opportunities that provide for the coordination of public and private funds for the purposes of developing and deploying renewable fuels, alternative jet fuels, and green electrolytic hydrogen;

(d) Assess opportunities for and barriers to deployment of renewable fuels, alternative jet fuels, and green electrolytic hydrogen in hard to decarbonize sectors of the state economy;

(e) Request recommendations from the Washington state association of fire marshals regarding fire and other safety standards adopted by the United States department of energy and recognized national and international fire and safety code development authorities regarding renewable fuels, alternative jet fuels, and green electrolytic hydrogen;

(f) By December 1, 2023, develop a plan and recommendations for consideration by the legislature and governor on renewable fuels and green electrolytic hydrogen policy and public funding including, but not limited to, project permitting, state procurement, and pilot projects; and

(g) Encourage new and support existing public-private partnerships to increase coordinated planning and deployment of renewable fuels, alternative jet fuels, and green electrolytic hydrogen.

(2) The office may take all appropriate steps to seek and apply for federal funds for which the office is eligible, and other grants, and accept donations, and must deposit these funds in the renewable fuels accelerator account created in RCW 43.330.575.

(3) In carrying out its duties, the office must collaborate with the department, the department of ecology, the department of transportation, the utilities and transportation commission, electric utilities in Washington state, the Washington State University extension energy program, the alternative jet fuel work group established in RCW 28B.30.646, and all other relevant state agencies. The office must also consult with and seek to involve federally recognized tribes, project developers, labor and industry trade groups, and other interested parties, in the development of policy analysis and recommended programs or projects.

(4) The office may cooperate with other state agencies in compiling data regarding the use of renewable fuels and green electrolytic hydrogen in state operations, including motor vehicle fleets, the state ferry system, and nonroad equipment. [2023 c 232 s 6; 2022 c 292 s 103.]

RCW 43.330.580 Substance use disorder treatment and services programs and recovery housing—Construction funds. (1) Subject to funds appropriated for this specific purpose, a program is established in the department to fund the construction costs necessary to start up substance use disorder treatment and services programs and recovery housing in regions of the state that currently lack access to such programs.

(2) This funding must be used to increase the number of substance use disorder treatment and services programs and recovery housing in underserved areas such as central and eastern Washington and rural areas. [2023 sp.s. c 1 s 15.]

RCW 43.330.590 Employee ownership program. (1) The Washington employee ownership program is created to support the efforts of businesses considering a sale to an employee ownership structure. The Washington employee ownership program must be administered by the department and overseen by the Washington employee ownership commission established in RCW 43.330.592.

(2) (a) In implementing the Washington employee ownership program, the director must:

(i) Create a network of technical support and service providers for businesses considering employee ownership structures;

(ii) Work with state agencies whose regulations and programs affect employee-owned businesses, and businesses with the potential to become employee owned, to enhance opportunities and reduce barriers;

(iii) Partner with relevant private, nonprofit, and public organizations including, but not limited to, professional and trade associations, financial institutions, unions, small business development centers, economic and workforce development organizations, and nonprofit entities to promote employee ownership benefits and succession models;

(iv) Develop and make available materials regarding employee ownership benefits and succession models;

(v) Provide a referral service to help qualified business owners find appropriate legal, financial, and technical employee ownership resources and services;

(vi) Work with the department of financial institutions and appropriate state, private, and nonprofit entities to shape and implement guidance on lending to broad-based employee ownership vehicles;

(vii) Create an inventory of employee-owned businesses in the state including employee stock ownership plans, worker cooperatives, and employee ownership trusts; and

(viii) Subject to the successful award of federal funding for this purpose, establish a revolving loan program to assist existing small businesses to finance a transition to employee ownership.

(b) Loans offered by the revolving loan program must be used to help facilitate the purchase of an interest in an employee stock ownership plan or worker-owned cooperative from the owner or owners of a qualified business, provided that:

(i) The transaction results in the employee stock ownership plan or worker cooperative holding a majority interest in the business, on a fully diluted basis; and

(ii) If used to assist in the purchase of an interest in an employee stock ownership plan, the employee stock ownership plan: (A) Has appointed an independent trustee; or (B) has, as a trustee, person, or entity, completed education on best practices for employee stock ownership plans.

(c) Loans financing the sale of an interest to a worker cooperative shall be extended based on repayment ability and shall not require a personal or entity guarantee. In meeting the requirement in (b) of this subsection, lending guidelines must be established for worker cooperatives not based on any personal or entity guarantees provided by the member owners or the selling business owner. These guidelines may include but are not limited to cash flow-based underwriting, character-based lending, and reliance on business assets.

(d) In order to support the revolving loan program, the director or the director's designee must apply for federal funding opportunities that:

(i) Support capitalization of state revolving loan programs; and

(ii) Support businesses that seek to transition to employee ownership.

(e) Amounts from the repayment of loans offered by the revolving loan program must be deposited in the employee ownership revolving loan program account established in RCW 43.330.595.

(3) The director or the director's designee may contract with consultants, agents, or advisors necessary to further the purposes of this section.

(4) By December 1st each year, the department must submit a report to the appropriate committees of the legislature on program activities and the number of employee-owned businesses and employee-owned trusts in the state, including recommendations for improvement and barriers for businesses considering employee ownership structures in Washington state. The first report must include rules and guidelines for the administration of the program, as established by the Washington employee ownership commission.

(5) For the purposes of this section:

(a) "Employee-owned business" means:

(i) An employee cooperative established under chapter 23.78, 23.86, 23.100, or 24.06 RCW that has at least 50 percent of its board of directors consisting of, and elected by, its employees; or

(ii) An entity owned in whole or in part by employee stock ownership plans as defined in 26 U.S.C. Sec. 4975(e)(7).

(b) "Qualified business" means a person subject to tax under Title 82 RCW, including but not limited to a C corporation, S corporation, limited liability company, partnership, limited liability partnership, sole proprietorship, or other similar pass-through entity, that is not owned in whole or in part by an employee ownership trust, that does not have an employee stock ownership plan, or that is not, in whole or in part, a worker-owned cooperative.

(6) Program support shall only be made available to businesses headquartered in Washington state. For the purposes of this section, "headquartered in Washington state" means that Washington state is its principal place of business or the state where it is incorporated.

(7) The director shall adopt rules as necessary to implement this section. [2023 c 392 s 2.]

Findings—Intent—2023 c 392: "The legislature finds that:

Employee ownership in companies provides numerous benefits to both businesses and workers across all industries. Research from the national center for employee ownership found that one such structure, employee stock ownership plans, had better workforce retention, benefits and retirement security, and firm performance than nonemployee stock ownership plans companies in the same industry. In addition, the Rutgers school of management and labor relations found that employee-owned companies outperformed nonemployee-owned companies in job retention, pay, and workplace health safety throughout the COVID-19 pandemic. At their core, employee ownership structures allow employees to gain ownership stake in a business, increasing their personal wealth without the risks related to starting or purchasing their own company.

States throughout the nation have moved to provide support for employee ownership structures. The Colorado employee ownership office has operated since 2019 to create a network of technical support and service providers considering employee ownership structures. Recently, both California and Massachusetts passed legislation to establish their own dedicated employee ownership support programs. Other states,

such as Iowa, provide tax benefits and upfront costs to businesses interested in employee ownership.

Further, the federal government has recognized the benefit broad-based employee ownership structures provide to communities. The American rescue plan act included \$10,000,000,000 for the state small business credit initiative. Through that act congress also directed the treasury department to allow state small business credit initiative funding to be used for transitions to employee ownership, when state small business credit initiative funding has not been historically available for business transactions.

The legislature desires to provide a dedicated program to educate businesses on employee ownership, assist both owners and workers in navigating available resources, reduce barriers to transitioning to employee-owned structures, and provide tax support for businesses that transition to an employee ownership structure.

Therefore, it is the intent of the legislature to encourage the growth of employee ownership structures through this expanding employee ownership act." [2023 c 392 s 1.]

Short title—2023 c 392: "This act may be known and cited as the expanding employee ownership act." [2023 c 392 s 8.]

HOMELESS YOUTH PREVENTION AND PROTECTION ACT

RCW 43.330.700 Findings—Homeless youth. (1) The legislature finds that every night thousands of homeless youth in Washington go to sleep without the safety, stability, and support of a family or a home. This population is exposed to an increased level of violence, human trafficking, and exploitation resulting in a higher incidence of substance abuse, illness, and death. The prevention and reduction of youth and young adult homelessness and protection of homeless youth is of key concern to the state. Nothing in chapter 69, Laws of 2015 is meant to diminish the work accomplished by the implementation of Becca

legislation but rather, the intent of the legislature is to further enhance the state's efforts in working with unaccompanied homeless youth and runaways to encourage family reconciliation or permanent housing and support through dependency when family reconciliation is not a viable alternative.

(2) Successfully addressing youth and young adult homelessness ensures that homeless youth and young adults in our state have the support they need to thrive and avoid involvement in the justice system, human trafficking, long-term, avoidable use of public benefits, and extended adult homelessness.

(3) Providing appropriate, relevant, and readily accessible services is critical for addressing one-time, episodic, or longer-term homelessness among youth and young adults, and keeping homeless youth and young adults safe, housed, and connected to family.

(4) The coordination of statewide programs to combat youth and young adult homelessness should include programs addressing both youth and young adults. In some instances, best practices mandate that youth programs and young adult programs be segregated in their implementation; however, in other instances, innovative approaches can ensure the health and safety of both populations while serving them together, allowing for alignment with federal programs and funding opportunities, application of adolescent neurodevelopment research, and maximization of capacity to serve more dispersed populations in rural areas. The legislature further finds that the differing needs of these populations should be considered when assessing which programs are relevant and appropriate.

(5) To successfully reduce and prevent youth and young adult homelessness, it is the goal of the legislature to have the following key components available and accessible:

(a) Stable housing: It is the goal of the legislature to provide a safe and healthy place for homeless youth to sleep each night until permanency can be reached. Every homeless young adult in our state deserves access to housing that gives them a safe, healthy, and supported launching pad to adulthood. Every family in crisis should have appropriate support as they work to keep their children housed and safe. It is the goal of the legislature that every homeless youth discharged from a public system of care in our state will not be discharged into homelessness.

(b) Family reconciliation: All homeless youth should have access to services that support reunification with immediate family. When reunification is not possible for homeless youth, youth should be placed in the custody of the department of children, youth, and families.

(c) Permanent connections: Every homeless young adult should have opportunities to establish positive, healthy relationships with adults, including family members, employers, landlords, teachers, and community members, with whom they can maintain connections and from whom they can receive ongoing, long-term support to help them develop the skills and experiences necessary to achieve a successful transition to adulthood.

(d) Education and employment: Every homeless young adult in our state deserves the opportunity and support they need to complete their high school education and pursue additional education and training. It is the goal of the legislature that every homeless young adult in our state will have the opportunity to engage in employment training and be able to access employment. With both education and employment

support and opportunities, young adults will have the skills they need to become self-sufficient, self-reliant, and independent.

(e) Social and emotional well-being: Every homeless youth and young adult in our state should have access to both behavioral health care and physical health care. Every state-funded program for homeless youth and young adults must endeavor to identify, encourage, and nurture each youth's strengths and abilities and demonstrate a commitment to youth-centered programming. [2019 c 124 s 4; 2015 c 69 s 4.]

(1) In accordance with RCW 43.330.700(5)(a), it is the goal of the legislature, that beginning January 1, 2021, any unaccompanied youth discharged from a publicly funded system of care in our state will be discharged into safe and stable housing, and that this policy applies to any judicial proceeding through which the youth has been committed to the publicly funded system of care or in any collateral proceeding that involves the custody of the youth in that system.

(2) The department of children, youth, and families and the office of homeless youth prevention and protection programs must jointly develop a plan to ensure that, by December 31, 2020, no unaccompanied youth is discharged from a publicly funded system of care into homelessness. The plan must specify actions that state agencies will need to take, any necessary statutory and funding legislative action, and the assignment of those specific state agency actions to effectuate all parts of the plan. By December 31, 2019, the department of children, youth, and families must issue the plan to the appropriate committees of the legislature and the governor.

(3) For the purposes of this section, "publicly funded system of care" means the child welfare system, the behavioral health system, the juvenile justice system, and programs administered by the office of homeless youth prevention and protection programs. [2018 c 157 s 1.]

(1) The office of homeless youth prevention and protection programs, in coordination with the department of children, youth, and families, shall administer flexible funding, subject to the amounts appropriated for this specific purpose, to support persons under the age of 25 exiting publicly funded systems of care that need discrete support or funding to secure safe housing. Findings—Intent—2022 c 137: "(1) The legislature finds that young people discharging from publicly funded systems of care are at increased risk of homelessness. Youth and young adults experiencing homelessness face traumatic events at a higher rate than their peers who have stable housing. Homelessness has long-term impacts on brain development and well-being and creates barriers to education and employment.

(2) RCW 43.330.720 establishes a goal that any unaccompanied youth discharged from a publicly funded system of care in our state will be discharged into safe and stable housing. The office of homeless youth prevention and protection programs and the department of children, youth, and families published the improving stability for youth exiting systems of care report in 2020 outlining steps to achieve this goal. These steps provide a multipronged approach to ensure youth exit publicly funded systems of care into safe and stable housing, including:

(a) System-level support while youth are in the custody of publicly funded systems of care to ensure effective transition from care;

(b) Community-level connections and services to provide support when youth transition back to the community; and

(c) Resources to secure and maintain stable housing.

(3) The legislature intends to implement community services, system response, and flexible resources to support the goal established under RCW 43.330.720 that youth discharged from publicly funded systems of care are discharged into safe and stable housing with the appropriate supports in place to provide a strong footing." [2022 c 137 s 1.]

Explanatory statement—2023 c 470: See note following RCW 10.99.030.

Findings—Intent—1996 c 186: "The legislature finds responsibilities of state government need to be limited to core services in support of public safety and welfare. Services provided by the Washington state energy office are primarily advisory and can be eliminated. The legislature further finds a need to redefine the state's role in energy-related regulatory functions. The state may be better served by allowing regulatory functions to be performed by other appropriate entities, simplifying state government while maintaining core services. Further, it is the intent of the legislature that the state continue to receive oil overcharge restitution funds for our citizens while every effort is being made to maximize federal funds available for energy conservation purposes."
