**RCW 50.62.010 Legislative findings.** The legislature finds and declares that:

(1) The number of persons unemployed in the state is significantly above the national average.

(2) Persons who are unemployed represent a skilled resource to the economy and the quality of life for all persons in the state.

(3) There are jobs available in the state that can be filled by unemployed persons.

(4) A public labor exchange can appreciably expedite the employment of unemployed job seekers and filling employer vacancies thereby contributing to the overall health of the state and national economies.

(5) The Washington state job service of the employment security department has provided a proven service of assisting persons to find employment for the past fifty years.

(6) Expediting the reemployment of unemployment insurance claimants will reduce payment of claims drawn from the state unemployment insurance trust fund.

(7) Increased emphasis on assisting in the reemployment of claimants and monitoring claimants' work search efforts will positively impact employer tax rates resulting from the recently enacted experience rating legislation, chapter 205, Laws of 1984.

(8) Special employment service efforts are necessary to adequately serve agricultural employers who have unique needs in the type of workers, recruitment efforts, and the urgency of obtaining sufficient workers.

(9) Study and research of issues related to employment and unemployment provides economic information vital to the decision-making process.

(10) Older workers and the long-term unemployed experience greater difficulty finding new employment at wages comparable to their prelayoff earnings relative to all unemployment insurance claimants who return to work.

(11) After a layoff, older unemployed workers and the long-term unemployed workers fail to find unemployment insurance-covered employment at a much higher rate than other groups of unemployment insurance claimants.

The legislature finds it necessary and in the public interest to have a program of job service to assist persons drawing unemployment insurance claims to find employment, to provide employment assistance to the agricultural industry, and to conduct research into issues related to employment and unemployment. The rules under this act shall meet federal requirements which are a necessary condition to the receipt of federal funds by the state or the granting of federal unemployment tax credits to employers in this state." [1987 c 171 § 7.]

**RCW 50.62.030 Job service program or activity—Enrollment in self-employment assistance or entrepreneurial training programs.** (1) Job service resources must be used to assist with the reemployment of unemployed workers using the most efficient and effective means of service delivery. The job service program of the employment security department may undertake any program or activity for which funds are available and which furthers the goals of this chapter. These programs and activities must include, but are not limited to:

The employment security department must make the services provided under this chapter available to the older unemployed workers and the long-term unemployed as soon as they register under the employment assistance program;

(b) Supplementing basic employment services, with special job search and claimant placement assistance designed to assist unemployment insurance claimants to obtain employment;

(2) Individuals who are eligible for services under the federal workforce innovation and opportunity act, P.L. 113-128 or its successor, must be provided the opportunity to enroll in self-employment assistance or entrepreneurial training programs to prepare them for self-employment on the same basis as they are provided the opportunity to enroll in other training programs funded under the federal workforce innovation and opportunity act. The department must work with local workforce development councils to ensure that the contracting process with training providers is efficient and that the number of entrepreneurial training providers on the state's eligible training provider list is sufficient to meet demand. Each local workforce development council must:

(a) Notify all individuals eligible for services under the workforce innovation and opportunity act of the availability of self-employment assistance and entrepreneurial training; and

(b) Establish and implement a plan for expending workforce innovation and opportunity act funds on self-employment assistance and entrepreneurial training at a rate that is commensurate with either the demand for such services or the rate of self-employment within the council's workforce development area.
