- WAC 16-86-140 Tuberculosis testing requirements for raw milk dairies. (1) All cattle whose raw milk or raw milk products are offered for sale must be from a herd that has tested negative for tuberculosis within the previous twelve months.
- (2) Any additions to the herd must be tested negative for tuber-culosis at the owner's expense within sixty days before introduction into the herd.
- (3) Herds must be tested negative annually at the owner's expense to maintain the dairy's raw milk license.
- (4) The state veterinarian shall direct all testing procedures in accordance with state and federal standards for animal disease eradication.
- (5) All raw milk and raw milk products from animals that test positive for tuberculosis are prohibited from sale and must be destroyed.
