

WAC 220-312-060 Freshwater exceptions to statewide rules—Columbia. The following exceptions to statewide rules apply to the Columbia River, including impoundments and all connecting sloughs, except Wells Ponds:

(1) **General Columbia River rules:**

(a) In the concurrent waters of the Columbia River between Washington and Oregon, the license of either state is valid when fishing from a vessel.

(i) Anglers must comply with the fishing regulations of the state in which they are fishing.

(ii) This subsection does not allow an angler licensed in Oregon to fish on the Washington shore, or in the sloughs or tributaries in Washington except as otherwise provided by department rule.

(iii) Anglers fishing the Columbia River are restricted to one limit, as defined by the laws of the state in which they are fishing, even if they are licensed by both states.

(b) It is unlawful to possess in the field salmon or steelhead mutilated so that size, species, or fin clip cannot be determined until the angler has reached their automobile or principal means of land transportation and completed his or her daily angling.

(c) Salmon and trout handling rules provided in WAC 220-310-100 apply to the Columbia River, except from February 15 through June 15 in the mainstem Columbia from the Rocky Point/Tongue Point line upstream to the Washington-Oregon border where WAC 220-310-100 applies only to anglers fishing from vessels less than 30 feet in length (as substantiated by Coast Guard documentation or Marine Board registration).

(d) From Buoy 10 to the Washington/Oregon border:

(i) From August 1 through December 31, each angler aboard a vessel may deploy salmon/steelhead angling gear until the salmon/steelhead limit for all anglers aboard has been achieved.

(ii) Barbless hooks are required for salmon and steelhead.

(e) Open year-round unless otherwise provided.

(f) Year-round night closure for salmon and steelhead fishing from Buoy 10 to Chief Joseph Dam.

(2) **Rules by river section:**

(a) Fishing from the north jetty is permissible when Marine Area 1 or Buoy 10 areas are open for salmon, and the limit and minimum size restrictions follow the most liberal regulations if both areas are open. Only single point barbless hooks may be used for salmon and steelhead.

(b) **From a true north-south line through Buoy 10 to the Megler Astoria Bridge:**

(i) The Youngs Bay Control Zone is defined as those waters southerly of a line originating on the Oregon shore at the east end of the seawall at the Warrenton Fiber log yard (approximately river mile 10.1) northeasterly through green navigation buoys 29, 31, 33, and 35A to the center of the Astoria-Megler Bridge abutment adjacent to, and north of the ship channel, and continuing southerly in line with the center of the Megler Bridge span to the Oregon shore.
