WAC 230-15-035 Authorizing new games or changing game rules.

All new card games and changes to existing card games must be approved by the director or director's designee prior to implementation at a card room licensee. The director or the director's designee authorizes each new card game or changes to existing card games on an individual basis. A list of all authorized games and the rules of play are available on the commission website.

(1) Licensees approved to market, sell, rent, or otherwise supply card games to card room licensees must submit, in the format we require, requests for:

- (a) Authorizing new card games; and
- (b) Changes to existing card games in writing.

(2) The director or the director's designee will notify the licensee in writing if the request is approved or denied. The notification for denial will include reasons for the denial and provide the licensee all information necessary to file a petition to the commission for rule making.

(3) Card room licensees must operate only the card games the director or the director's designee has specifically authorized.

WAC 230-15-040 Requirements for authorized house-banked card

games. In order for a house-banked card game to be authorized, it must be approved by the director or the director's designee and must:

(1) Be played with standard playing cards or with electronic card facsimiles approved by the director or the director's designee.

Authorized house-banked card games may:

- (a) Use more than one deck of cards; and
- (b) Remove cards to comply with rules of a specific game; and
- (2) Limit the number of wagering areas to nine or less.

(a) "Wagering area" means identified areas on the layout to place wagers;

- (b) All wagering areas must be identical to each other; and

- (3) Identify all separate games in the card game:

(a) "Separate game" means each individual objective to be achieved within a card game that requires a separate wager and results in a distinct and separate pay out based upon the outcome;

- (b) Separate games may incorporate bonus features; and

(c) Progressive jackpots and house jackpots are considered separate games; and

- (4) Describe player requirements. Players must:

(a) Compete solely as a player in the card game, except as authorized in the approved card game rules for variations of Pai Gow poker where a player may bank the game every other hand; and

(b) Receive their own hand of cards and be responsible for decisions regarding such hand, such as whether to fold, discard, draw additional cards, or raise the wager except for separate games that:

- (i) Use cards shared by all players (i.e., community cards); or

(ii) Allow players to wager on the outcome of the dealer's hand; or

(iii) Allow players to win a prize if any players' hand, including the dealer's hand, achieves a predetermined outcome at the same table; and

- (5) Identify bonus features to be allowed in each separate game:

(a) "Bonus feature" means an opportunity within a separate game whereby a player may win additional prizes. Bonus features must be operated as described below:

- (i) A bonus feature is not considered a separate game; and

(ii) Players must not place wagers on bonus features. However, players may be required to place a minimum wager on a separate game to qualify for a bonus feature; and

(iii) Players may receive a prize if their hand or another player's hand at the same table achieves a predetermined specific hand. If a player is playing more than one wagering area and any one of their hands achieves the predetermined specific hand, their other hand with a qualifying wager is entitled to receive a prize also; and

(iv) A bonus feature cannot be a progressive jackpot; and

(6) Not allow side bets between players; and

(7) Use only authorized gambling equipment; and

(8) A player's win or loss must be determined during the course of a single deal of cards except for:

(a) A carryover pot game. A carryover pot is an optional pot that accumulates as a dealer and participating players contribute to the pot. The winner of the pot is not necessarily determined after one game and the pot can be carried over to more than one game. Carryover pots must not carryover more than ten games. Participants must include at least one player and the dealer competing for the highest qualifying winning hand. Game rules must state how the pot is distributed. If the carryover pot has not been won by the tenth game, the dealer will divide it equally between the remaining players still participating in the pot and the house or, if allowed by game rules, only the players still participating in the pot; and

(b) In the game of Mini-Baccarat, a player may make an optional wager on the player hand winning the next three consecutive games, or the banker hand winning the next three consecutive games.

WAC 230-15-045 Withdrawing card game authorization. If the director or the director's designee withdraws authorization of a card game:

(1) The director or the director's designee will give licensees written notice and an opportunity to object to the decision. If a licensee files an objection in writing, an administrative law judge will review the decision.

WAC 230-15-050 Minimum cash on hand requirements. (1) Card game licensees must have sufficient cash on hand to redeem all chips issued for play and pay out all prizes.

(2) Within three hours of opening for the business day, at a time included in the internal controls, house-banked card game licensees must have at least the following minimum amount of cash on premises in their cage, safe, and vault combined:

(a) One thousand dollars for each house-banked table on the gambling floor; plus

(b) The amount of the largest single prize available excluding progressive jackpot, player-supported jackpot, and house jackpot prizes.

For example: If a house-banked card room has 15 house-banked tables and a largest single prize of \$23,000, before opening, the cage must have at least \$38,000 on hand: 15 tables x \$1,000 = \$15,000 + largest single prize of \$23,000 = \$38,000.

(3) Except for the restrictions on player-supported jackpot pay outs in WAC 230-15-405 and progressive jackpot pay outs in WAC 230-15-690, licensees may pay prizes by check if sufficient funds are available on deposit.

(4) Failure to keep funds to cash in chips, pay prizes, or redeem gambling related checks is *prima facie* evidence of fraud. Meeting the minimum cage cash amount does not relieve the licensee from the requirement to have sufficient funds available to redeem all chips and pay out all prizes.

Count Requirements in House-Banked Card Rooms

WAC 230-15-605 Requirements for count rooms. (1) House-banked card game licensees must have a secured area, called a "count room," for counting the contents of drop boxes.

(2) Licensees must design and construct the count room to provide maximum security for the materials housed there and for the activities conducted there. The count room must be fully enclosed with only one entry. Licensees must also have:

(a) A door with at least one lock securing the count room door. The security department must keep and control the key or combination to the door. If a double locking system is used, the gambling operation department must keep the key to the second lock; and

(b) A sign-out procedure for all authorized keys used for the count process; and

(c) An alarm device connected to the entrance of the count room so that opening the door signals the surveillance employees monitoring the closed circuit television system.

(3) In the count room, licensees must have:

(a) A table of clear glass or similar material with a base that does not obstruct viewing for the emptying, counting, and recording of the contents of the drop boxes (the "count"); and

(b) Closed circuit television cameras and microphones that capture effective and detailed video and audio monitoring of the entire count process; and

(c) A sign posted in the count room or at the entrance that states audio recordings are occurring within the count room at all times.

(4) Licensees must keep a count room sign-in log in the format we require.

[Statutory Authority: RCW 9.46.070. WSR 07-09-033 (Order 608), § 230-15-605, filed 4/10/07, effective 1/1/08.]

WAC 230-15-610 Preparing to conduct a count. (1) House-banked card game licensees must assign licensed employees to conduct the count. The count team must not include anyone who works in the surveillance department or whose duties included preparing, approving, or reviewing records used in the specific count process. Count team requirements are based on the licensee's card room gross gambling receipts in their previous fiscal year:

| Card Room Gross Gambling Receipts | Minimum Count Team Requirements |
|--|---|
| Less than \$5 million. | Two person count team. |
| \$5 million to \$15 million. | Three person count team or two person count team if a currency counter is used as outlined in this chapter. |
| More than \$15 million. | Three person count team. |
| A new house-banked card room whose financial statements have not yet been submitted to us. | Three person count team. |

(2) Prior to using a two person count team, the licensee must receive approval from the director or their designee. The approval will be based on the licensee:

(a) Meeting the card room gross gambling receipts requirements in their previous fiscal year; and

(b) Having internal controls in place to prevent both under-reporting and misappropriation of funds; and

(c) Having demonstrated following their internal controls to prevent both under-reporting and misappropriation of funds based on their administrative history; and

(d) Having a currency counter, which complies with commission rules, and internal controls for the use of the currency counter. This applies for those licensees with card room gross gambling receipts of \$5 million to \$15 million.

(3) Licensees must accurately count and record the contents of drop boxes to ensure the proper accountability of all gambling chips, coin, and currency. The count must be done at least once each gambling day.

(4) If a cage cashier completes the opener, closer, fills, and credits portions of the master game report, the cashier sends the original master game report to the count team for completion. The cage cashier must immediately send a copy directly to the accounting department.

(5) A count team member must notify the surveillance room observer that the count is about to begin. The surveillance employee must then observe the count as it occurs and make a video and audio recording of the entire count process.

(6) Before opening drop boxes, the count team must lock the door to the count room. Licensees must permit no person to enter or leave the count room, except for a normal work break or an emergency, until the count team has completed the entire counting, recording, and verification process for the contents of drop boxes.

[Statutory Authority: RCW 9.46.070. WSR 18-23-074, § 230-15-610, filed 11/19/18, effective 1/1/19; WSR 07-09-033 (Order 608), § 230-15-610, filed 4/10/07, effective 1/1/08.]

WAC 230-15-615 Conducting the count. (1) All house-banked card room licensees must have a three person count team except as set forth in subsections (2) and (3) of this section. The three person count team must conduct the count as follows:

(a) The contents of drop boxes must not be combined before the count team separately counts and records the contents of each box; and

(b) As each drop box is placed on the count table, a count team member must announce the game, table number, and shift, if applicable, loudly enough to be heard by all persons present and to be recorded by the audio recording equipment; and

(c) A count team member must empty the contents onto the count table; and

(d) Immediately after the contents are emptied onto the count table, a count team member must display the inside of the drop box to the closed circuit television camera, and show it to at least one other count team member to confirm that all contents of the drop box have been removed. A count team member must then lock the drop box and place it in the drop box storage area; and

(e) Count team member(s) must separate the contents of each drop box into separate stacks on the count table by denominations of coin, chips, and cash and by type of form, record, or document; and

(f) At least two count team members must count, either manually or mechanically, each denomination of coin, chips, cash, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators separately and independently. Count team members must place individual bills and coins of the same denomination, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators on the count table in full view of the closed circuit television cameras, and at least one other count team member must observe and confirm the accuracy of the count orally or in writing; and

(g) As the contents of each drop box are counted, a member of the count team must record the total amount of coin, chips, cash, debit

card transaction receipts, and tickets redeemed by TITO-enabled bill validators counted (the drop) on the master games report; and

(h) If a cage cashier has recorded the opener, closer, fill slips, and credit slips on the master game report before the count, a count team member must compare the series numbers and totals recorded on the master game report to the fill slips, credit slips, and table inventory slips removed from the drop boxes, confirm the accuracy of the totals, and must record, by game and shift, the totals we require on the master game report. Otherwise, the count team must complete all required information on the master game report; and

(i) The accounting department may complete the win/loss portions of the master game report independently from the count team if this is properly documented in the approved internal controls.

(2) The two person count team for licensees with card game gross gambling receipts of less than \$5,000,000 in their previous fiscal year must conduct the count as follows:

(a) The contents of drop boxes must not be combined before the count team separately counts and records the contents of each box; and

(b) As each drop box is placed on the count table, a count team member must announce the game, table number, and shift, if applicable, loudly enough to be heard by all persons present and to be recorded by the audio recording equipment; and

(c) A count team member must empty the contents onto the count table; and

(d) Immediately after the contents are emptied onto the count table, a count team member must display the inside of the drop box to the closed circuit television camera, and show it to at least one other count team member to confirm that all contents of the drop box have been removed. A count team member must then lock the drop box and place it in the drop box storage area; and

(e) A count team member must separate the contents of each drop box into separate stacks on the count table by denominations of coin, chips, and cash and by type of form, record, or document; and

(f) One count team member must count, either manually or mechanically, each denomination of coin, chips, cash, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators separately and independently. The count team member must place individual bills and coins of the same denomination, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators on the count table in full view of the closed circuit television cameras, and the other count team member must observe and confirm the accuracy of the count orally or in writing; and

(g) As the contents of each drop box are counted, a member of the count team must record the total amount of coin, chips, cash, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators counted (the drop) on the master games report; and

(h) As the count is occurring, a surveillance employee must record in the surveillance log the total chips, cash, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators counted for each drop box and the announcement by the count team of the combined dollar count of all drop boxes; and

(i) If a cage cashier has recorded the opener, closer, fill slips, and credit slips on the master game report before the count, a count team member must compare the series numbers and totals recorded on the master game report to the fill slips, credit slips, and table inventory slips removed from the drop boxes, confirm the accuracy of the totals, and must record, by game and shift, the totals we require

on the master game report. Otherwise, the count team must complete all required information on the master game report; and

(j) The accounting department may complete the win/loss portions of the master game report independently from the count team if this is properly documented in the approved internal controls.

(3) The two person count team for licensees with card game gross gambling receipts between \$5,000,000 and \$15,000,000 in their previous fiscal year and use a currency counter must conduct the count as follows:

(a) The currency counter to be used must meet the following requirements:

(i) Automatically provides two separate counts of the funds at different stages in the count process. If the separate counts are not in agreement during the count process and the discrepancy cannot be resolved immediately, the count must be suspended until a third count team member is present to manually complete the count as set forth in subsection (1) of this section until the currency counter is fixed; and

(ii) Displays the total bill count and total dollar amount for each drop box on a screen, which must be recorded by surveillance.

(b) Immediately prior to the count, the count team must verify the accuracy of the currency counter with previously counted currency for each denomination actually counted by the currency counter to ensure the counter is functioning properly. The test results must be recorded on the table games count documentation and signed by the two count team members performing the test; and

(c) The currency counter's display showing the total bill count and total dollar amount of each drop box must be recorded by surveillance during the count; and

(d) The contents of drop boxes must not be combined before the count team separately counts and records the contents of each box; and

(e) As each drop box is placed on the count table, a count team member must announce the game, table number, and shift, if applicable, loudly enough to be heard by all persons present and be recorded by the audio recording equipment; and

(f) A count team member must empty the contents onto the count table; and

(g) Immediately after the contents are emptied onto the count table, a count team member must display the inside of the drop box to the closed circuit television camera, and show it to the other count team member to confirm that all contents of the drop box have been removed. A count team member must then lock the drop box and place it in the drop box storage area; and

(h) Count team member(s) must combine all cash into one stack and separate the contents of each drop box into separate stacks on the count table by denomination of coin and chips, by type of form, record, or document; and

(i) Count team members must place all of the cash from a drop box into the currency counter which will perform an aggregate count by denomination of all of the currency collected from the drop box; and

(j) One count team member must count each denomination of coin, chips, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators separately and independently by placing coins and chips of the same denomination on the count table in full view of the closed circuit television cameras, and the other count team member must observe and confirm the accuracy of the count orally or in writing; and

(k) As the contents of each drop box are counted, a member of the count team must record the total amount of coin, chips, cash, debit card transaction receipts, and tickets redeemed by TITO-enabled bill validators counted (the drop) on the master games report; and

(l) As the count is occurring, a surveillance employee must record in the surveillance log the currency counter accuracy information in (b) of this subsection, currency verification amount, debit card transaction receipt amount, ticket redemption amount, total bill and dollar count of each drop box and the announcement by the count team of the combined dollar count of all drop boxes; and

(m) If a cage cashier has recorded the opener, closer, fill slips, and credit slips on the master game report before the count, a count team member must compare the series numbers and totals recorded on the master game report to the fill slips, credit slips, and table inventory slips removed from the drop boxes, confirm the accuracy of the totals, and must record, by game and shift, the totals we require on the master game report. Jackpot Prizes for House-Banked Card Games

WAC 230-15-671 Jackpot prizes. House-banked card room licensees may offer and operate "jackpot" prizes with approved house-banked card games.

(1) "Jackpot" prizes are cash prizes displayed at house-banked card game tables. Jackpot prizes are won by achieving a predetermined specific hand. There are two types of "jackpot" prize schemes:

(a) **Progressive jackpots:** A jackpot prize which increases in real-time based on each wager placed. Licensees must:

(i) Collect players' wagers to allocate towards a separate progressive jackpot prize. Approved game rules determine how a progressive jackpot accrues; and

(ii) Adjust the master games report in the prescribed format to reflect daily accrued prizes; and

(iii) Act only as the custodian of the progressive jackpot funds; and

(iv) Maintain no legal right to funds collected for the posted progressive jackpot prize or reserve funds which have not been recorded as gross receipts; and

(v) Strictly account for all funds collected.

(b) **House jackpots:** A fixed prize amount funded by the licensee that does not accrue or incrementally increase each time a wager is made to any guaranteed player fund or prize. Licensees must:

(i) Follow approved game rules related to house jackpots; and

(ii) Not adjust the master games report for house jackpot prizes; and

(iii) Award the posted house jackpot prize to each player achieving the predetermined winning hand; and

(iv) Conspicuously post the following at the table:

(A) The fixed prize amount; and

(B) A disclosure defining the jackpot prize as a house jackpot which involves no player funded money; and

(C) A disclosure to the players stating that the house jackpot may be removed without prior notice.

(2) Only progressive jackpots may use approved gambling equipment where the jackpot meter shows a real-time incrementally increasing progressive jackpot prize amount.

(3) House jackpots may use approved gambling equipment. Displayed prize amounts may only be adjusted manually by the licensee.

(2) For verified prizes over \$5,000, licensees must immediately pay out a minimum of \$5,000 and pay the remaining balance within 24 hours by check. The player may request that the licensee pay up to the entire prize balance by check. Licensees must then issue a check for the entire prize balance within 24 hours.

(4) Licensees may connect progressive jackpots. Progressive jackpots are considered "connected" when jackpot prize displays at gaming tables incrementally increase at the same time after players place jackpot wagers. Connected progressive jackpot displays must show the same prize amounts. Licensees may only connect progressive jackpots:

(a) When offered on the same card game on multiple tables within the same licensed location; or

(b) When offered on different card games on multiple tables within the same licensed location. The card games offering the progressive jackpot(s) must have:

(i) The same probability of winning the jackpot prize; and
(ii) The same winning hand.

(5) When gambling equipment will allow a progressive jackpot between different manufacturers, the gambling equipment must be submitted for testing for interoperability in accordance with WAC 230-06-050.
