

WAC 296-96-24178 Additional requirements. (1) All inclined private residence elevators shall be equipped with:

(a) A manual method of moving the elevator in accordance with ASME A17.1/CSA B44; and

(b) A machine brake with a lever to release the brake allowing movement by use of a manual method.

(2) Machinery spaces shall be protected from weather and accidental contact. Machinery spaces shall be locked.

(3) Guiding members and moving parts of the inclined private residence elevator shall be free of brush and other types of material that might either impede the travel or cause deterioration of the equipment over time.

[Statutory Authority: Chapter 70.87 RCW. WSR 18-18-070, § 296-96-24178, filed 8/31/18, effective 10/1/18.]
